

Felipe Herrera

Department of Physics, Universidad de Santiago de Chile USACH.

Av. Ecuador 3493, Estación Central, Santiago - Phone: (56 2) 27181203 - Email: felipe.herrera.u@usach.cl

Academic Experience

Universidad de Santiago de Chile

Department of Physics

Assistant Professor

Since 2014

Harvard University

Department of Chemistry and Chemical Biology

Postdoctoral Fellow

2012 - 2014

Education

University of British Columbia, Ph.D. Chemistry

Dissertation: *Quantum Control of Binary and Many-Body Interactions in Ultracold Molecular Gases*. Advisor: Roman Krems

2007 - 2012

Universidad de Chile, B.Sc. Chemistry

Dissertation: *Theory of Two-Photon Spectroscopy in Coordination Complexes*.

2007

Teaching

- **Graduate Physics:** *Introduction to Atomic, Molecular and Optical Physics*.
- **Undergraduate Physics:** *Physics for Engineering (Mechanics), Physics for Computer Science, Electricity and Magnetism*.
- **Undergraduate Chemistry:** *Quantum Chemistry, Chemistry 101 (Lab TA)*.

Honors & Awards

Award *Inserción en la Academia* PAI, Conicyt

2014

Four Year Fellowship, University of British Columbia

2009

Gladys Estella Laird Fellowship, University of British Columbia

2007

Best Student of Chemistry Award, Universidad de Chile

2007

Grant Funding

- Office of Naval Research Global CSP Award N62909-20-1-2005 [US\$ 14,500, **PI**]
- Millennium Institute for Research in Optics (MIRO) **2018-2028** [US\$ 16,130,000, **co-PI**]
- Fondecyt Regular **2018-2022** [US\$290,000, **PI**]
- CORFO Technological Contracts for Innovation [US\$ 290,000, **co-PI**].
- Conicyt PAI **2014-2016** [US\$ 69,500, **PI**]
- Fondecyt Iniciación **2014-2016** [US\$ 72,500, **PI**]

Professional Activities

- **Co-Organizer**

- "1st Workshop on Molecular Quantum Technologies", Puerto Natales, Chile, Dec. 16-20, 2019.
- APS March Meeting DCP Focus Session on "Strong light-matter coupling: Enhanced spectroscopy, modified molecular dynamics and altered chemical reactions", March 5-9, 2018.
- "2nd International Workshop on Quantum Coherence and Decoherence", Medellin, August 25-29, 2014.

- **Reviewer**

Physical Review Letters, Journal of Physical Chemistry Letters, Nano Letters, Chem, New Journal of Physics, Physical Review A, Journal of Physical Chemistry C, Journal of Chemical Physics, European Journal of Physics D, Molecular Physics, Scientific Reports, Physics Letters A, Optics Express, CONICYT [grants].

PUBLICATIONS

INVITED PRESENTATIONS

1. *Controlling the Chemistry and Dynamics of Organic Materials with Quantum Optics at the Nanoscale*, International Conference on Materials Science, Valdivia, October **2019**.
2. *Vibrational polaritons in the ultrastrong coupling regime: spectroscopy and chemistry*, Workshop on Molecular Polaritonics, Madrid, July **2019**.
3. *Controlling chemistry with quantum optics at the nanoscale*, Centro de Óptica Cuántica e Información Cuántica, Universidad Mayor, June **2019**.
4. *Controlling chemistry with quantum optics at the nanoscale*, JILA seminar, February **2019**.
5. *Cavity quantum electrodynamics with organic matter*, 2nd Workshop in Optics and Photonics, Universidad de los Andes, December **2018**.
6. *Controlling chemistry with quantum optics in nanoscale cavities*, 10th International Meeting on Photodynamics and Related Aspects, Cartagena, September **2018**.
7. *Holstein-Tavis-Cummings theory of organic polaritons: Spectroscopy and chemistry*, 9th International Conference on Spontaneous Coherence in Excitonic Systems, Montreal, July **2018**.
8. *Holstein-Tavis-Cummings theory of organic polaritons: Spectroscopy and chemistry*, Workshop "Quantum Frontiers in Molecular Science", Telluride, June **2018**.
9. *The physics of organic cavities*, Universidad de Chile, Santiago, November **2017**.
10. *Controlling chemistry with quantum optics in nanoscale cavities*, Fac. de Ciencias, Universidad de Chile, Santiago, July **2017**.
11. *Controlling chemistry with quantum optics in nanoscale cavities*, Centre for Quantum Technologies, Singapore, Feb. **2017**.
12. *Controlling chemistry with quantum optics in nanoscale cavities*, SMART Centre, Singapore, Feb. **2017**.
13. *Cavity-controlled chemistry in molecular ensembles*, CINV, Valparaiso, July **2016**.
14. *Cavity-controlled chemistry in molecular ensembles*, CEFOP, Concepción, June **2016**.
15. *Cavity-controlled chemistry in molecular ensembles*, Photodynamics, Mendoza, May **2016**.
16. *Controlling nonlinear optical response and chemical reactions in organic cavities*, Pacifichem, Honolulu, December **2015**.
17. *Matchgate quantum computing with cold polar molecules*, APS March Meeting, San Antonio, March **2015**.
18. *Matchgate quantum computing with cold polar molecules*, JILA, Boulder, December **2014**.
19. *Solid-state nonlinear quantum optics with organic polar molecular aggregates*, IWQCD II, Medellín, August **2014**.
20. *Controlled entanglement manipulation in cold molecular gases with strong laser pulses*, University of British Columbia, Vancouver, May **2013**.
21. *Controlled entanglement manipulation in cold molecular gases with strong laser pulses*, Kavli Institute for Theoretical Physics, Santa Barbara, March **2013**.
22. *Dynamical generation of entanglement in cold molecular gases using strong laser pulses*, Institute for Theoretical AMO Physics, Boston, January **2013**.
23. *Quantum control of binary and many-body interactions with cold molecules*, Quantum Center, University of California Berkeley, May **2012**.
24. *Tunable Holstein Hamiltonian with cold polar molecules*, Institute for Theoretical AMO Physics, Boston, September **2011**.
25. *Tunable Holstein Hamiltonian with cold polar molecules*, Institut für Theoretische Physik, Universität Ulm, Ulm, June **2011**.
26. *External field control of collective coherence in optical lattices of polar molecules*, Institut für Quantenoptik und Quanteninformation, Innsbruck, May **2011**.
27. *Quantum interference induced by external fields in ultracold collisions*, AMO seminar, University of British Columbia, Vancouver, November **2009**.
